

Inflated fsaverage cortex (sulci shaded darker); each source coloured by the SNR ratio of the dipole or patch centred on it. Blue: OPM better, red: SQUID better, black line: equal SNR.

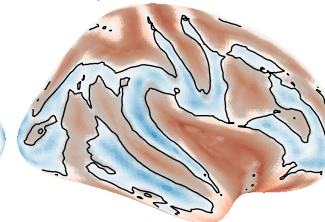

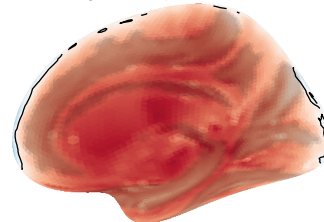

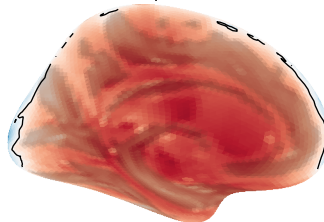

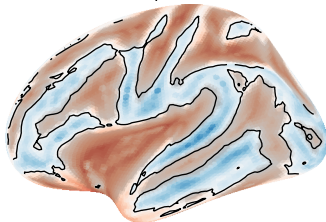

left hemisphere, lateral

left hemisphere, medial

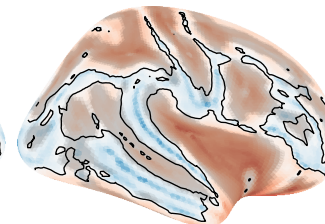

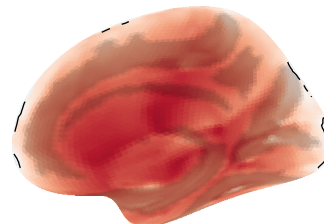

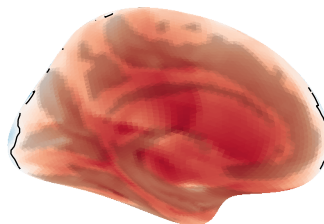

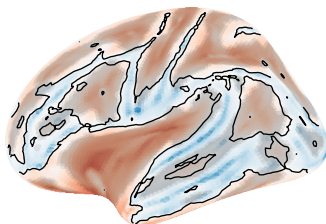

right hemisphere, medial

right hemisphere, lateral

dipole
OPM better for
23 % of the cortex

$\rho = 10$ mm (2.6 cm²)
OPM better for
19 % of the cortex

$\rho = 20$ mm (10.6 cm²)
OPM better for
12 % of the cortex
